TAPPING THE
K . E . G . S .

KOMPUTER ENTHUSIASTS OF GREATER SEATTLE

Prez Says:

Ron Cowger

Well, here we are in October and ironically the temperature today is warmer than I think it was on most days during September. Has our local weather been fouled up or what? As I recall, one of the local weathermen reported a few days ago that only two days in September were categorized as "sunny." That's almost enough to make one leave the area for a break. My wife and I have a short trip to northern California planned for later in the month. I hope it's nice while we are down there. Oh well, the cold and wet weather has given me more time to work on some computer projects that I wanted to get done instead of working in the yard. I am definitely a fair-weather gardener and the garden shows it.

I really enjoyed the presentation on Office 2010 that Carl gave us at the General Meeting last month. Microsoft added some handy new tools and made all of the applications within the Office suite consistent in that they all use the ribbon bar now. I'm still trying to get used to that. Anyway, I really appreciate Carl giving us some of his precious time. He's a very busy guy and we are all grateful when he can get away from his teaching schedule to join us at a General Meeting. Thanks again, Carl. We learned a lot from your presentation.

The October presentation will be from Steve Fondren. As many of you know, Steve has been trying to get through a list of some of his favorite applications and tools that he uses to troubleshoot and repair computers. Due to many questions and sometimes getting off track during his SIG that precedes the General Meeting, Steve has not gotten very far into his list. Therefore, Steve has graciously agreed to be the main presentation speaker at the General Meeting to ensure that he has time to get all the way through his topic. I'm looking forward to his presentation as I know he has developed the collection of tools based on working as effectively and efficiently on problems that he encounters during customers' service calls. This information should be very helpful to most of us. I hope to see each of you there.

As I announced at last month's General Meeting, the Board is proposing that we buy vests as the next KEGS club garment rather than shirts. Most of the members who were at the General Meeting were receptive to the idea so we are now pursuing that initiative. As I told you before, we need twenty-four orders for the purchase to be economically reasonable. To date, about sixteen folks have signed up on the order lists. I hope that we can get twenty four soon so that we can submit the order. I'll keep you informed as we get more

participation.

This month there are two new tips from Sharon Parq Associates added to our monthly newsletter. There is one for using Word and the other for Excel, each designed to expand our knowledge of these applications. If you want access to additional tips from this company, you can go to their websites at word.tips.net or excel.tips.net. I think you'll find the information interesting and useful.

Starting this month, members can renew their KEGS memberships for 2011 and earn the designation of Early Bird Members. As I think you know, by being an Early Bird Member you will receive an extra drawing ticket when you check in at the General Meetings. Renewal forms are available from John Tate, our Treasurer, or you can fill out the form on the KEGS web site, print it out and send it along with your check to the address shown on the form. An even easier way would be to bring your completed form and your check to the next General Meeting and give it to John there.

Also starting in October, we will be looking for members who would like to serve on the KEGS Board of Directors. I encourage each of you to consider volunteering some of your time to help run the user group. The Board only meets once a month for less than two hours so most jobs on the Board don't take too much of a member's time. If you feel that the organization needs some new ideas and fresh faces on the Board, please volunteer to serve for a year. Just tell any member of the Board that you are interested and he/she will give your name to the Nominating Committee. The Nominating Committee this year consists of Sally Ann Mowrey, Jerry Olson and me. Thanks for giving it some thought.

That's it for now. I hope to see each of you at the General Meeting or at your favorite SIG. I wish you happy and safe computing!

Word Tip of the Month

Searching for Paragraph Formatting

Word has a very powerful search capability that allows you to find not just text but the formatting of text as well. To search for paragraph formatting, follow these steps:

1. Press **CTRL+F** to display the Find tab of the Find and Replace dialog box.
2. Make sure the Find What box is empty.
3. Click on the More button if it is available.

The expanded Find tab of the Find and Replace dialog box.

4. Click on the No Formatting button, if it is enabled.
5. Click on the Format button and select Paragraph. The Find Paragraph dialog box appears.
6. Select the paragraph attributes for which you want to search. When selecting attributes that use check boxes, a check in a check box means the matching paragraph must have the attribute. If the check box is empty, then the paragraph won't have that attribute. A shaded box means the attribute doesn't matter.
7. Click on OK.
8. Click on Find Next.

Excel Tip of the Month

Controlling the Display of Page Breaks

When you are formatting a worksheet, you may want to see where Excel will insert page breaks in your printout. This is easily done by using the Print Preview option, or by using the Page Break Preview feature. You may also want to see the page breaks when you are again editing the worksheet.

Excel can display page breaks as dashed lines between rows or columns on your worksheet. To enable this display, simply follow these steps:

1. Choose Options from the Tools menu. Excel displays the Options dialog box.
2. Make sure the View tab is selected.

The View tab of the Options dialog box.

3. Make sure the Page Breaks check box is selected.
4. Click on OK.

If you are using Excel 2007 or Excel 2010 then the steps to follow are a bit different:

1. Display the Excel Options dialog box. (In Excel 2007 click the Office button and then click Excel Options. In Excel 2010 display the File tab of the ribbon and click Options.)
2. At the left side of the dialog box, click Advanced.
3. Scroll through the list of options until you see the Display Options for This Worksheet section.
