From Microsoft, rumor is that Windows 10 19H1 should release this month, but there is no firm commitment for this. It is not till May, but something to put on your calendar, is the Vietnam Memorial with a restored B-52G at the Museum of Flight on May 25th. <https://www.museumofflight.org/Site/Explore-The-Museum/Vietnam-Commemorative-Park.aspx>

India became the fourth nation to launch a missile that destroyed a satellite. The issue with this is that it leaves a lot of new debris in low earth orbit. This makes for issues for a lot of other things up there including the ISS which the new debris field is going to pass nearby. <https://www.space.com/india-anti-satellite-test-significance.html>
