TAPPING THE

K . E . G . S .

KOMPUTER ENTHUSIASTS OF GREATER SEATTLE

Prez Says:

Ron Cowger

Here it is August already. Is it just my imagination or is this summer passing very quickly? I guess it passes more quickly for me as I work more hours at my part-time job during the summer when we have more tourists visiting our area. Due to my working more and the summer weather, I find that I spend less time using my computer during these months. However, I still enjoy learning new and different things that make the computing experience more fun and effective. I find that my involvement in our User Group is my primary route to gaining new information that I find useful.

As you surf the Internet looking for fun and useful information, I suggest that you stop by some of the websites established by other PC User Groups. There is a good list of especially helpful sites on Page 52 in the June issue of Smart Computing magazine. I suggest that you take a look at some of the sites that they have highlighted as I think you'll discover some great, new information.

Last month, I reported that I intended to establish a committee to study our annual KEGaBuck\$ Auction to see if improvements could be made. I am happy to report that I have found seven volunteers that have agreed to participate in this study. If you have inputs that you think the committee should include in their discussions, please give them to Carl VonPapp, Michael Owen, Ray Buckingham, Lloyd Corgan, Bob Baxter, Joe Mraz or Joe Story. Bob Baxter will chair the committee's deliberations. You can write to him with your suggestions at apcugrep@kegs.org. The committee will develop recommendations that will then be sent to the KEGS Board of Directors for discussion and implementation as appropriate.

I hope that you can attend the August General Meeting of KEGS where we will have two presentations. First, Joe Mraz will demonstrate an inexpensive product that allows you to convert documents to the widely used pdf format that can then be read by Adobe Acrobat Reader. Second, Keith Ennis will discuss some of the latest voice recognition technology. We're getting closer and closer to that day when we can just speak to our computers and they will perform the desired function. I find this technology fascinating and hope that you do too. I hope to see each of you at the meeting.

That's about it for this month. Here's wishing you happy and trouble-free computing. I look forward to seeing you at the General Meeting or at a SIG meeting in the near future.

Respectfully,

Ron Cowger
President

DRIVING INSTRUCTIONS: Thanks to the improvements to SR 520, you may now use the new NE 40th St exit. If you are driving towards Redmond, exit and turn left to go over the overpass. If you are coming from Redmond, exit and turn right. Go to 148th Ave NE, and turn right. In very short order, you will see the North Bellevue Community / Senior Center sign on the left side of the roadway.

History & Contact info:

KEGS was formed in late 1996 to meet the needs of personal computer users in the Greater Seattle Area. KEGS is a nonprofit organization that holds its general meetings on the second Thursday of each month.

In addition, KEGS sponsors a number of special interest groups (SIGs) that meet regularly to share common interests, learn new techniques, and resolve questions about the use of personal computer hardware, accessories, or software.

For a detailed listing of our SIG's, updated information about KEGS activities, and more, please see our web site at:
