Welcome to December, the month we celebrate Christmas and Hanukkah! We are still unable to meet evenings at the North Bellevue Community Center. The Omicron variant may cause changes in COVID restrictions and delay openings.

On December 13th, our General Meeting program will be “Not Your Parent’s PowerPoint” presented by Marcia Berkey. PowerPoint is more than just presentation software. This presentation will demonstrate many unusual uses for PowerPoint, from documenting your memories to creating greeting cards for the holidays. You will learn how to create a Photo Album for life events, not to be confused with Photo Books from other vendors. However, there is a cool trick that you can use in PowerPoint to make your Photo Books better. You will also learn how to narrate your slideshows, add music to them, and how to export your PowerPoint as a .mp4 video. You can share your creations through your favorite social media sites. Have fun with Marcia learning more about PowerPoint.

We always need more members, so please let others know about the informative Zoom meetings we have monthly and all of the free help we offer.

To keep up with technology visit <https://www.techforsenior.com> to learn about their Monday morning meetings (9:00 AM PT), their Newsletter, and their Facebook page.
