TAPPING THE

KOMPUTER ENTHUSIASTS OF GREATER SEATTLE

Prez Says:

Gerald Smith

Welcome to April, the month of Easter, tulips, and Tax Day! Some COVID restrictions have been removed at the North Bellevue Community Center. We are hopeful that we will again be able to meet in person by May or June.

On April 11th, our General Meeting program will be "Backups in a Busy World" presented by Mark Schulman via Zoom. World Backup Day was on March 31st. Given enough time, every hard drive eventually fails, and most often, this means that all your photos, documents, and video -- everything! -- is lost. And recent evidence suggests that even under the best circumstances, hard drives don't last as long as previously thought. Backups are the only defense against serious data loss, yet most people don't bother. So instead, discover essential strategies to ensure your data is safe with the least amount of trouble. If you are one of the many people who don't backup, maybe Mark Schulman will be able to give you some help finding an easy way to do needed backups. Please join us for this interesting presentation.
